About:

Recent Computer Science graduate with a strong foundation in software development and hands-on experience through internships. Eager to contribute to innovative projects and grow as a software engineer.

Experience:

Software Engineering Intern

TechCorp Inc.

Summer 2022 - Summer 2022

Developed and implemented a new feature for the company's web application, improving user engagement by 15%
Collaborated with senior developers to optimize database queries, reducing load times by 20%
Participated in daily stand-ups and sprint planning meetings, gaining experience in Agile methodologies

Junior Developer

StartUp Solutions

Summer 2021 - Summer 2021

Assisted in the development of a mobile app using React Native, contributing to 30% of the app's functionality
Implemented unit tests for critical components, increasing code coverage by 25%
Worked on bug fixes and performance improvements, resolving 40+ issues in the issue tracker

Education:

Bachelor of Science in Computer Science - Computer Science

University of Technology

May 2023

Projects:

Personal Budget Tracker

Developed a full-stack web application using the MERN stack (MongoDB, Express, React, Node.js). Implemented user authentication and data visualization features. Deployed the application on Heroku with continuous integration using GitHub Actions.

Machine Learning Image Classifier

Created a convolutional neural network using TensorFlow to classify images with 92% accuracy. Trained the model on a dataset of 10,000 images and optimized it for mobile devices.

Skills:

Java • Python • JavaScript • C++ • HTML • CSS • React • MySQL • MongoDB • Git • JIRA • Docker
